An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 57 has been amended as follows:

57. (Currently amended) A optical method for detecting contaminants and defects of a test surface comprising:

providing a light beam along a path to the test surface, producing an illuminated spot thereon;

collecting light scattered by the surface within a first range of collection angles from ~~the a~~ line perpendicular to the test surface and conveying the collected light to a first array of detectors by means of a first collector having an optical axis substantially along a the line ~~perpendicular to the test surface~~;

collecting light scattered by the surface within a second range of collection angles from the line different from the first range and conveying the collected light to a second array of detectors by means of a second collector having an optical axis substantially along the line. wherein the collecting collects scattered light rotationally symmetrically about axes of the collectors; and

causing relative motion between the beam and the surface, so that the beam scans a spiral path on the surface.

Claims 70-87 and 89-108 have been canceled.

The amendment to claim 57 has been made to correct an obvious typographical error leading to a possible unclarity in the claim, in which "the line", first occurrence, had no antecedent basis, although "the line" being referred to was defined later in the claim. The amendment moves the definition of "the line" to the first occurrence, giving the term proper antecedent basis throughout the claim. This amendment does not change, and is not intended to change, the scope of the claim, but merely clarifies the language of the claim.

Claims 70-87 and 89-108 were elected without traverse in the paper filed 18 January 2005. As all the elected claims, 36-69, are allowable, claims 70-87 and 89-108 have been canceled in accordance with the procedure set forth in MPEP 821.02.
